

## Megabank Global e-Banking Approving Transaction Notice

1. Base on The Bankers Association Of The Republic Of China regulations, effective 14th March 2011, the user who approve transaction with certificate need to install new Active X program.

(1)How can I know I am using certificate or not?

If you hold the KEY (left side) to approve transaction right now, that meaning you have certificated.

(2)To install new Active X program steps:

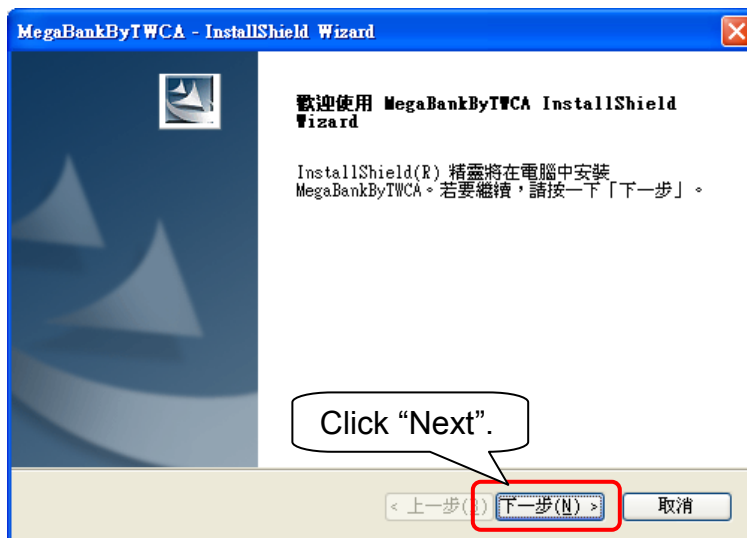

(Notice: if you didn' t update the program, you can' t approve transactions.)

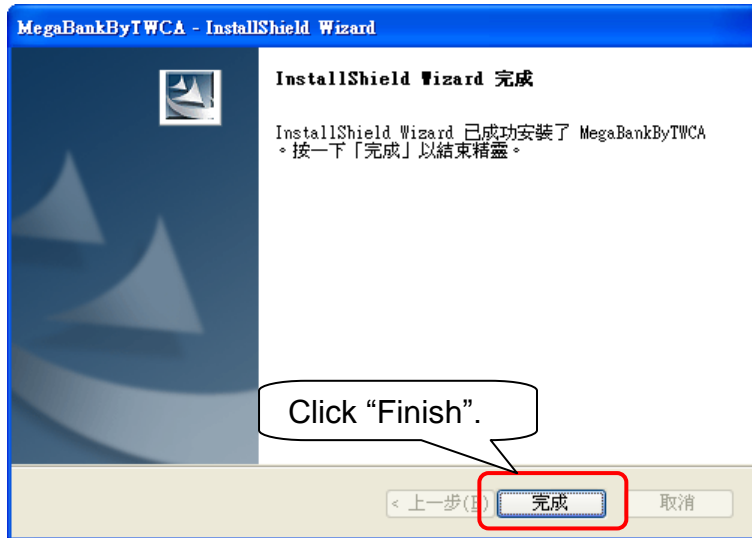

A. Log out Global e-Banking website.

B. [Click here to download zip file.](#)

(As your company allows installing on line, please [click here](#) and choice "Run". When you finish install process, please jump to [step 2](#) and log in website to approve transactions.)

- Choice "Save", and save file to your desk.
- Extracting file.
- Run "Setup.exe" to install the program.

C. Log in website and approve transaction in “Dashboard”.

2. As approving non-prearranged account transactions with certificate, the website has added two functions to ask approver to using CAPTCHA and pull out / insert KEY, detail as below:

(Approving with One time password (OTP) token no effect.)

(1) To choice non-prearranged account transaction you want to approve.

- A. To confirm transaction content.
- B. To click “Confirm”.
- C. To ken in **CAPTCHA**.

D. Follow website direct, to pull out the KEY, and then re-insert KEY to your PC.

❶ To pull out the KEY.

❷ Re-insert the KEY.

E. To key in password, to finish approving process.
